Training Course for doctors

Fellowship from Scandinavian Society Research Foundation

The Local Organizing Committee of SCR 2012 is pleased to organize a training course for doctors in their specialist training. The course has been made possible by a generous grant from the Scandinavian Society of Rheumatology.

Entitlements:

The participants must come from one of the Nordic countries (Iceland, Finland, Norway, Sweden, Denmark) and will receive free tuition, meals, accommodation and congress registration. The accommodation covers both the course and the congress (4 nights). The Training course will take place at the Tivoli Congress Center.

Program:

Start: Saturday, September 1, 2012, 13:00 hrs.

End: Sunday, September 2, 2012, 14:00 hrs.

The course will be based on case stories, which the participants will be asked to analyze and discuss, in order to get a broad perspective on the rheumatologic issues. The aim of the course is both the scientific content as well as networking with doctors on the same educational level from other Nordic countries.

Please contact your national society for further details.
